

3. STĀVS

The diagram illustrates a cross-section of a double-pane window assembly. It features two glass panes separated by a gap. On the exterior side (left), there is a layer of thermal insulation labeled "Vārta veļas sāhtai uz pagrabu". On the interior side (right), there is another layer of thermal insulation labeled "Sāhts uz pagrabu". The window is shown installed in a frame, with the insulation layers extending to the outer edges of the frame.
